Example:

Tom's employer provides him with group-term life insurance coverage of \$200,000. Tom is 45 years old, is not a key employee, and pays \$100 per year toward the cost of the insurance. Tom's employer must include \$170 in his wages. The \$200,000 of insurance coverage is reduced by \$50,000. The total cost of \$150,000 of coverage is \$270 ($\$0.15 \times 150 \times 12$), and is reduced by the \$100 Tom pays for the insurance. The employer includes \$170 in boxes 1, 3, and 5 of Tom's Form W-2. The employer also enters \$170 in box 12 with code "C."
